

Otsuka Electronics Webinar

Date : Tuesday, October 13, 2026

On demand webinar

13:00 – 22:00 UTC

10:00 – 19:00 BRT (UTC-3)

07:00 – 16:00 CST (UTC-6)

06:00 – 15:00 PDT (UTC-7)

Fundamentals and Latest Applications of Zeta Potential Evaluation for Nanoparticle

This webinar introduces the fundamentals of zeta potential measurement using ELS, an essential technique for nanoparticle characterization. Learn how it supports the evaluation of nanoparticle dispersibility, and explore the key features of the ELSZneo, including direct measurement in PBS and its unique capability for solid surface zeta potential measurement, with practical examples.
